# Compass Conference 2010

## June 16 – 17, 2010 – Valdosta, GA

### Session Descriptions

#### MicroMD

- **MicroMD PM: Basics** – See how to navigate the system, enter new patients, schedule appointments, print encounter forms and scan insurance cards.
- **MicroMD PM: Collections** - See the basics and implementation features of account and sequence based collections.
- **MicroMD PM: Reports** - Overview of managerial reports. See how to get the most from MicroMD reports. Find out which reports are used for balancing and which monthly reports can optimize practice efficiency.
- **MicroMD PM: Appointments / Recalls** – Presentation of the essentials of the appointment scheduling and patient recall modules. See how to customize appointment templates, establish the waiting list, and set up patient recall procedures.
- **MicroMD PM: Advanced, Tips & Tricks, and V7 Preview** – MicroMD shortcuts and tips to make MicroMD PM even faster. Review of Advanced modules such as Referrals Tracking. Preview of what is to come in V7.
- **MicroMD EMR: Overview** – Walk through a visit using a paperless charting system and see how to improve workflow, enhance care delivery and boost productivity.

#### EDI CManager

- **EDI: New Features** – Practice Insight implemented 20+ new features including Task Manager in the most recent update. Many will make your daily use of EDI more organized with easier to find needed information. This session is ideal for all billing staff.
- **EDI: Daily Use Overview** – Will cover EDI CManager from uploading your claims to working invalids and rejects to downloading remits and running reports. Session is a good overview for those new to EDI CManager or just as a refresher course.

- **EDI: Clinical Claim Scrubber** – See how to track for PQRI and ePrescribe to receive Medicare Incentive. Megas' Clinical Claim Scrubber program is a very useful tool that will pay for itself in finding billing errors as well as help you report on your PQRI and eRX claims. It also allows you to see how the payer will process claims before you send them. Session is ideal for all Billing Staff and Office Managers.
- **EDI: ERA Manager**– Have you ever wanted to work your EOBs based on a Denial or Adjustment code? Have you ever wanted a way to track history or try to re-coup payment from payer? ERA Manager is a very robust program to help you do just these. Session is ideal for all Billing Staff as well as Office Managers.
- **EDI: Task Manager and FAQ** – Practice Insight's new Task Manager is a 'one-stop-shop' for all your daily tasks in EDI. Task Manager can be implemented with all EDI CManager modules and to help assign tasks to Billing Staff as well as give Office Managers and CBO Staff an overview how claims are processing. Session is ideal for Billing Staff and Office Managers.

#### Aprima

- **Aprima EMR: PRM 2009** – A basic overview of Aprima and a look at some new features in this version. We'll also discuss some key features such as ePrescribing and documenting for Medicare ePrescribing incentives and PQRI measures.
- **Aprima EMR: Basics Overview** – Chart a visit with Aprima which uses a standard knowledge database that permits customization, but eliminates spending weeks or months building templates. Adaptive learning remembers the things the doctor does most.

# Compass Conference 2010

## June 16 – 17, 2010 – Valdosta, GA

### Session Descriptions

#### Technology

- **GreenFlag: Collections** – Presentation of the GreenFlag collections system. Speaker Jeff Dorsey will explain benefits and usage to office time and provider maximize collection returns. See how MicroMD and GreenFlag can help lower your collection costs.
- **Relay Health: Messaging and eScripts** – Review of eScript and messaging portal. See how fast and simple eScribing can be for your practice. Webvisits can minimize patient clinic time and provider can bill for services.
- **PSC: Statements and Confirmations** –We will cover MicroMD Statement Batching options and transmitting your batch to PSC. We will also cover how to retrieve your confirmations as well as error reports PSC makes available to avoid unnecessary statement fees. Session is ideal for Billing Staff.
- **Good Internet Practices and Backup** – Protecting your digital data is just as important as guarding your paper documents from theft or damage. If you're concerned about the possibilities of unwelcome intrusions and data loss, but aren't yet confident you know how to fully avoid them, this is a great opportunity to learn what each user can do to keep data safe from both inevitable and preventable hazards.
- **Keynote Address – “How Does Meaningful Use Affect You?”**  
**Presented by Mark Richards, Sr. VP of Aprima -**  
As part of the American Recovery & Reinvestment Act (ARRA) more than \$19 billion has been earmarked for the expansion and adoption of healthcare IT. This session will lay out exactly what is happening with “Meaningful Use” including an explanation of what stimulus money is available to providers under the program. In addition, current programs such as e-Prescribing and PQRI will be explained to help you take advantage of incentives already available today.

# Compass

Conference '10

User Conference for the customers of  
**Automated Medical Systems**

*A New Direction for the Medical Practice*
